

NIT Jalandhar SOC — Incident Report

Incident ID: SOC-2026-031

Classification: INTERNAL

Status: Evidence Under Investigation

Executive Summary

A workstation belonging to the student portal administration team was found to have been accessed outside normal operating hours. The visible incident report contains the information recovered during the initial investigation.

Recovered Evidence

- Authentication activity was observed at 02:13 AM.
- The compromised account had legitimate credentials.
- No obvious malicious attachment was visible in the recovered report.
- Investigators suspect that additional evidence may exist beyond the visible contents of the document.

Investigator's Note

The document appears normal when viewed normally.
Do not assume that everything contained in a file is visible to the application used to open it.
